MOVABLE GLAZING

STARLIGHT presents aesthetic and flexible solutions with its Folding Office Partition Systems for your spaces. Sliding and folding panels can be moved without using floor guides or tracks. Bearings, bolts and locks help to keep each panel in fixed position. The panels are easy to adjust, align, and operate. The strong rollers allow the system to carry heavy panels.

If you need a flexible solution to keep your space free when it is opened up, as well as separated and still visible when it is closed.

Features

- Soft line AG profile design in 3 mm thickness
- AG Design mechanical jaw. High capacity and axial loading solutions
- Maximum holding capacity and comfort by using stainless steel "web ball bearings".
- 10 mm / 12 mm tempered glass and UV resistant flexible gasket for vertical conjunctions
- Perfect sound and dust insulation by (2+2) brushes
- AG Design special pins reinforced by steel
- Steel security pins between panels
- High secure locking system
- Hydraulic door closer which can hold the door 90° in position
- Door handle
- Optional Logo application on glazing panels
- Industrial solutions

Momentum

Atrium

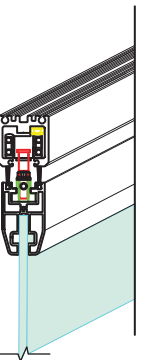

MOMENTUM

Momentum system is Synchronized Folding System. Panels connected to rail profile only by one roller. Panels folding occur by hinges and rollers together. In open position the panels are positioned perpendicular to the rail profile and stocked on one side.

ATRIUM

Atrium system is Movable Glass Wall Systems. Panels connected to the rail profile only by two roller. Each panel moves independently. The panels slides by rollers and stocked in parking space vertically.

Maximum Height

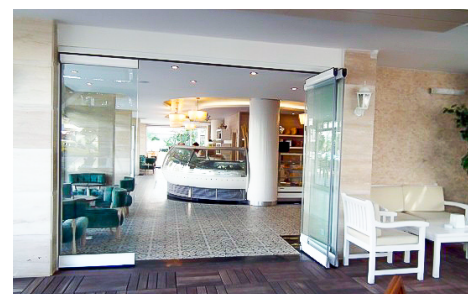

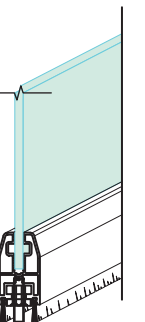

Maximum View
Albert Genau HSW/ Systems offer a panoramic view with maximum glass heights and maximum panel widths. Glass panels can be done as 4 meter height and 1 meter width.

Maximum Isolation with Angular Brushes

EPDM gaskets in the side profiles and special designed angular brushes placed on top of and bottom profile of the glass panels, will offer high isolation against wind, dust and noise.

Flexible solutions for any field of application

Hotels, hospitals, restaurants, cafes, sports centers, retail, shopping malls, training centers. Albert Genau HSW/ systems can be applied wherever you need a flexible solution for your living area.
